

CARF Accreditation Update April 2019

CARF International is an independent, nonprofit organization that surveys and accredits health and human services providers worldwide. A service or program that is CARF accredited has passed an in-depth on-site review and has demonstrated substantial conformance to internationally recognized standards for quality.

We are pleased to announce:

A Three-Year Accreditation was awarded to South Shore Support Services by CARF for our Adult Family Care Program under Home and Community Based Services.

Our accreditation is a public commitment that we strive to:

- Involve persons served and their families in their service planning.
- Respect individual cultural preferences.
- Be accountable to our funding sources, referral agencies, and the community at large.
- Address health and safety concerns, such as building safety and emergency preparedness.
- Maintain management practices that are efficient, cost-effective, and based on outcomes and consumer satisfaction.
